GIVE 'BEAUTY TREATMENT' TO R. I. DEPOT

The Rock Island station in Mokena has undergone a "beauty treatment." It has been re-decorated for the first time since the station was erected in 1948. The ceiling and side walls have been done in two tone light green with dark green trim. This cheerful color combination has been made standard for all Rock Island stations.

When the new station was completed in 1948, attractive and comfortable chairs were installed. Since then, however, the backs of several of them have been torn off by hoodlums and this accounts for the fact that some of the chairs are without backs. No doubt many passengers, waiting for their trains, have wondered about these backless chairs from time to time, but that is how it all came about.

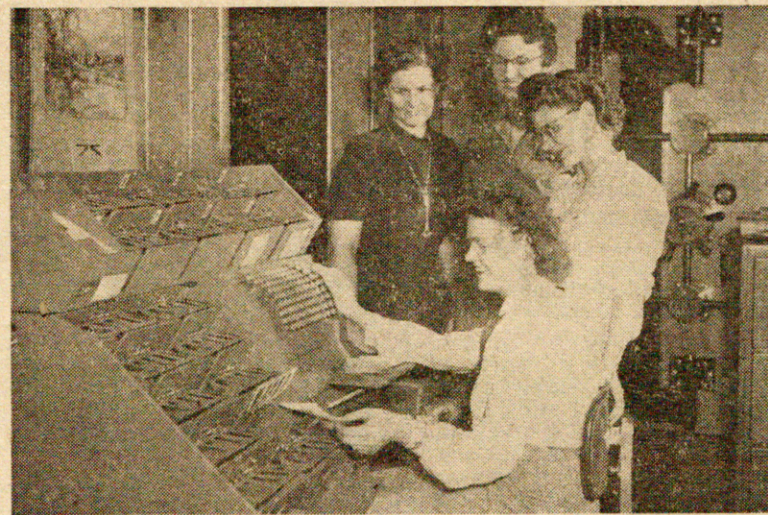

It is to be regretted that here and there we encounter citizens who are inclined to extend the idea that this is a "free country" beyond its normal boundaries. It is hoped that all who enter this depot in future will be mindful of the fact that this is private property and refrain from disgracing the walls with pencil and crayon markings, and works of questionable art, bearing in mind that streamlined chairs are expensive, and that a chair without a back is both unsightly and uncomfortable.

TAKE FIELD TRIP THROUGH CHICAGO SLUMS

Twenty-one members of the social studies classes at Lincoln-Way took a field trip through some of the slum areas in the Chicago area and visited some of the private and public housing projects within the city of Chicago.

This trip was made possible through the cooperation of the Chicago Housing Authority and Mr. Emil Hirsch, Mr. Hirsch, the informational officer accompanied the students on a tour of the slum clearance programs and some of the recently developed housing projects.

The trip included a visit to the Grace Abbott homes with a visit through one of the model apartments. They were also acquainted with the "Conservation Belt" which surrounds the slums. This conservation belt is an attempt to enforce the housing regulations in regard to subdividing the apartments. This is to keep the slum areas from spreading to other parts of Chicago. This conservation program also aims to clean up the neighborhoods and destroy some of the dilapidated buildings.

All felt that this trip was very much worthwhile and they learned at first hand the problems encountered by one of the nation's largest cities.

Hawaiian Movies Shown At St. Mary's Keen Teen

"Let's go to Hawaii", seemed to be the expression most frequently heard after the movies of the Hawaiian Islands at the Jan. 4 meeting of the Mokena St. Mary's Keen-Teen club.

The movies were shown by Mrs. R. E. Over of Frankfort township. Preceding the movies Mrs. Over gave a brief history of the islands and she also narrated the films. The films are the property of Mrs. Over's sister, Mrs. M. R. Vail, who lived in Hawaii for a number of years and who is now on a round-the-world tour.

All the movies shown were taken by Mrs. Vail with the exception of the eruptions of the Kilauea and Mauna Loa volcanoes. The other films were a delightful combination of the gorgeous scenery and colorful tropical flowers of the islands.

After the movies, coffee and cake were served to the parents of the club members.

This will be the first of a series of square dances to be held every other week and their continuance, of course, will depend largely upon the attendance. All organizations in Frankfort are urged to get behind this movement and to do everything possible to assure its success. These square dances will be held mainly for the benefit of the youth of this community, and parents should see to it that their teen agers are present at these dances. They will be well rewarded, that is, both parents and teen agers, for the square dance is a delightful pastime, and affords unsurpassed opportunities for widening one's circle of acquaintance.

Parents, too, are cordially invited to attend these square dances, as well as young folks who have passed the teen age. There will be plenty of wholesome enjoyment for all. Remember they will be held every two weeks if sufficient interest is shown to justify continuance of this program.

F. KOHLHAGEN WAS GREAT CIVIC LEADER

Last rites for Mr. Frank J. Kohlhausen, 83, of Frankfort, were held in the Sonntag Funeral home in Joliet Friday afternoon, Jan. 7. Rev. Ralph Steele, pastor of Frankfort Methodist church, officiated. Burial was in Pleasant Hill cemetery, at Frankfort.

Mr. Kohlhausen, who died Jan. 5 in the Jane Lamb hospital in Clinton, Iowa after an illness of several years, was an outstanding figure in the community life of Frankfort and surrounding area. He was one of the founders of the Frankfort State bank, and served as secretary of the bank for many years. He was school treasurer for Frankfort township for 40 years, and treasurer and trustee of the Frankfort Methodist church for a long period. Also, he conducted a grocery and general store in Frankfort for a long time, retiring from that business in 1927. He also served as banker for the Modern Woodmen of America, Frankfort Camp, and assisted in arrangements for a street car line that ran between Joliet and Chicago Heights, and which served Frankfort, where a street car station was located. Mr. Kohlhausen also conducted an insurance business.

Aside from these business activities, there was hardly a civic affair for the improvement of Frankfort and adjacent territory in which Mr. Kohlhausen was not a leader.

He was born in Marley Dec. 17, 1871, the son of the late John F. and Marie Seaman Kohlhausen, and moved to Frankfort at an early age with his parents. He also served as treasurer of the non-high school board, and was still serving in that capacity when the law was changed in this respect and that school board ceased to function.

Surviving are his widow, Mrs. Emma B. Kohlhausen; three daughters, Mrs. Homer F. Gardner of Bay Shore, Long Island, N. Y.; Mrs. Charles V. Wagoner, of Clinton, Ia.; Mrs. John P. Wright of Winnetka; three grandchildren and a sister, Mrs. O. B. Herschbach, of Frankfort.

A sister, Mrs. Emma Logan, of Chicago Heights, preceded him in death in 1924.

Mokena Youths' Installed In DeMolays

An impressive youth service was held last Saturday evening in the Masonic Temple in Joliet, when officers of the Swordsman's chapter, Order of DeMolay, were installed. The DeMolay consists of young men, ages 14 to 21. A number of Mokena men participated in the service.

Kenneth Webster, of Tinley Park, a past master counselor, was installing officer, and did an exceptionally fine piece of work during the hour-long services. He paid a glowing tribute to mothers, and explained very beautifully, what mother means to a growing boy, and during all the

years to follow. Red and white carnations helped him beautify his talk. Boys whose mothers had passed on were to receive a white carnation; those whose mothers were still living received a red one. Happily, all took a red carnation.

Robert Kreml, past master counselor, of Mokena, was installing officer, and performed his duties in a befitting manner.

Twenty-two officers were installed. Heading the list as master counselor was Henry Clark, of Mokena, who also carried his part in a creditable manner. After the installation ceremonies

had been completed the gavel was presented to Jim by Installing Officer Webster.

As is the custom because the DeMolays honor and show great respect to their mothers, he invited his mother and father, Mr. and Mrs. Henry I. Clark, to the platform, where he presented his mother with a gorgeous bouquet of red carnations. He was also happy to present his grandmother and grandfather, Mr. and Mrs. William Brockman, and his aunt, which he did in a gracious manner.

Another Mokena boy to par-

ticipate in the services was Richard Gillette, who sang the "Lord's Prayer" and "The Song of The Open Road," accompanied by his cousin, Alma Lauffer. A large representation of Mokena friends was present.

Following the installation, refreshments were served in the dining room by the De Molay Mothers club. There was also a group of seven young men who had reached the age of 21, and who had, therefore, automatically passed out of the DeMolays and are eligible for membership in the older organization, the Masonic Order if they so choose.

All the years we've spent together, All the happy, golden hours, Shall be cherished in remembrance, Fragrant sweets from memory's flowers.

W. A. Muehler has been confined to his home for a week with the flu.

Mr. and Mrs. Clarence Breitbarth and Mr. and Mrs. Howard Beagley motored to Hobart, Ind., Sunday and spent the day with the latter's son, Robert Beagley and family.

A daughter was born to Mr. and Mrs. Gordon Bruce in Silver Cross hospital Thursday, Jan. 6. The baby weighed eight pounds 11 ounces and has been named Joanne Helen.

Ernest Edwards who suffered a broken hip several weeks ago and who has been confined in Silver Cross hospital since, returned to his home Sunday.

The Women's missionary society of the Park View Baptist church held their monthly meeting in the home of Mrs. Stanley Baudray last Thursday evening, with 17 present. Ruth Olsen was co-hostess. A round table discussion was held on Christian witnessing and living. The members started a fund to purchase an organ for their church which is being planned for construction. On Thursday, Feb. 3 the group will hold a Secret Pal valentine party in the home of Mrs. John Ball, 93rd St., and route 30. Many other interesting programs are being planned with speakers and slide films. The president, Mrs. Verne Runia, invites all women who are interested in this church to contact her either in person or by calling her at Mokena 4461. Refreshments were served after the meeting.

A daughter was born Jan. 7 in St. Joseph's hospital, Joliet, to Mr. and Mrs. Roy Carlson of Chicago. The Good Luck camp of Royal Neighbors will meet in the Homer Town Hall Thursday afternoon, Jan. 20, with Mesdames Burnette Donahue, Madeline Welter, Lena Wright and Hattie White as hostesses. The new officers for 1955 will be installed that day.

The C. A. C. surprised Mr. and Mrs. Arthur Shepherd in the home of Mr. and Mrs. Charles Jungles Wednesday evening. The affair was a farewell for "Art"

who expects to leave Jan. 17 to join the armed forces. Mrs. Shepherd and daughter will live with her mother, Mrs. Leona Mather, in Lockport for the present. Delbert Shepherd and family of Joliet will move into the house where the Arthur Shepherds are now living.

A cattle feeders' meeting was held in the town hall Thursday evening to discuss feeds and feeding methods. Paul McLean of the Chicago Producers Association was the speaker.

On the afternoon of Jan. 10, Mrs. Robert Shepherd Sr. gave a talk on "Dolls as a Hobby" at a meeting of Home Bureau officers in Elwood.

Mr. and Mrs. Glenn White of McKinley Ct., Lockport, are the

parents of a son born Jan. 4 in St. Joseph's hospital. The parents are former well known Homerites. Mrs. White is the former Katherine Boyce.

A post nuptial shower was held Sunday afternoon in the town hall in honor of Mrs. James Weeks. The hostesses were Mesdames Ralph Reiter, Jr., Alvin Welter, and Francis Weeks. Many lovely gifts were presented and dainty refreshments were served following the opening of the gifts.

Woodman Election

The meeting of the Modern Woodmen was postponed from Dec. 28 to Monday, Jan. 3, because of inclement weather. At this time, with Walter Konow acting as host, the annual election of officers resulted as follows: Venerable council, Walter Konow; adviser, Barney Welter; treasurer, Fred Kopleman; watchman, John Wagner; two trustees, John Welter and Frank Kolar; sentry, Maurice Paddock.

Bridal Shower

Miss Rita Rodgers, assisted by Miss Norma Loucks, entertained a group of 20 relatives and friends of Carol Burch at a bridal shower in her home Saturday evening in the Rodgers home. Contest games were played with prizes for the winners and duplicates for the bride to be, who then opened her gifts. Mrs. Rodgers and Mrs. John Loucks served at quartette tables.

Late this week Carol will leave by motor for Camp McDill, Tampa, Fla., where she will become the bride of A. L. John Garabrant. She will be accompanied by her mother, Mrs. H. Reed Burch, and Mr. and Mrs. Neil Garabrant, parents of the groom.

Mrs. Willard A. Rowley has been quite ill with the flu during the past week.

The Arthur Talbert family were dinner guests of Mr. and Mrs. C. G. Rowley last Sunday. Miss Cissy Whalen of Lockport was an over night guest of Rita Rodgers Saturday night.

Homer Little Women

The Little Women's 4H club started the season in fine shape Thursday evening when 15 members met in the Elwyn Cagwin home and chose officers and projects for this year.

Elected were Kathie Bier, president; Susanne Burcham, vice president; Joyanne Purdy, secretary; Bonnie Cagwin, treasurer; Edna Mae Burcham, reporter;

Lincoln-Way At Rich Jan. 7
Lincoln-Way had a rough weekend, losing at Rich Twp. 81-32 and getting beat at home by Peotone 17-33. Peotone and Rich are two of the most outstanding basketball teams in the area. Rich is the defending champion of the Southwest Suburban League and Peotone has been undefeated in competition so far. Lincoln-Way put up a good fight in both games.

Saturday night the fresh-soph played an exciting game against Peotone. The boys lost by one point, 40-39. Since their earlier games against Peotone (which they lost 61-25) they have improved quite a bit. In Saturday night's game Lincoln-Way fought from behind to take the lead in the final seconds, 39-34. Peotone started a full-court press which paid off for them. Ron Studnicki and Ron Fredin of Lincoln-Way led all scorers with 11 and 10 points.

Jumping off to an early 22-13														
lead, the Braves slowed down														
the pace somewhat in the second														
period. When the buzzer sound-														
ed ending half time play, Coach														
Brown's cagers held a 35-25 mar-														
gin.														
Seemingly sparked at inter-														
mission by its pilot, the Sand-														
burg five narrowed the Braves'														
lead to four points.														
In the final stanza Bremen														
spurred ahead once more and														
sent the Orland Parkers down to														
a 58-50 defeat.														
Bill Lindsay, Brave forward,														
captured the high point crown														
by caging 21 points. Center Al														
James dropped in 14 markers.														
Bremen fresh-soph dropped a														
42-36 decision to the Sandburg														
five in a preliminary tilt.

No. Ill. Gas Co. To Make Adjustment

The Illinois Commerce Commission announces that Northern Illinois Gas Company will adjust its rates by reducing the "cost of purchased gas adjustment factor" in its rate schedules, resulting in refunding approximately \$900,000 to the utility's 475,000 gas customers in northern Illinois over the next twelve months. The adjustment factor will be reduced to reflect a lower cost of gas as well as the \$900,000 refund. The total amount of the refund and the reduction will be in excess of \$1,500,000 for the twelve month period.

This action results from a ruling the Federal Power Commission in Washington, which limits the Texas Illinois Natural Gas Pipeline company, one of Northern Illinois Gas Company's suppliers, to a wholesale rate increase of \$2.916,484, slightly less than half the \$5,837,591 increase

with MOLINE-MONITOR FLUTED FEED DRILLS

... with single or double disc openers
Progressive farmers in this area rely on Moline-Monitor drills with fluted feed and double disc or single disc openers to sow crops accurately, at uniform depth with uniform covering and careful handling.
The deep-cut fluted feeds prevent bridging and grinding of seed. Even trashy seed flows through evenly. An exclusive MM feature permits the operator to actually see the seed being delivered to the spouts. No special gates of any kind are needed on the quality MM Monitor Drills. The regular feeds with two speed drive handle everything from soybeans to flax.
Grain growers also prefer Moline-Monitor Drills because of their dependability and long-life, trouble-free operation. Typical of the better construction are the axle bearings which are extra large and completely enclosed in a self-aligning dustproof housing.

Nickel In Foundry Industry

The major uses of primary nickel by the iron foundry industry are in the so-called "engineering" cast irons. Large quantities are also employed in the special irons such as Ni-Resist, a nickel-containing alloy resistant to corrosion and heat, and Ni-Hard, an abrasion-resistant nickel-chromium cast iron.

Without doubt Mr. S. L. Avery is cranky at times, as is every reader of this column when reaching 80 years of age. He, however, is doing a wonderful job with Montgomery Ward. I cannot imagine how any sensible stockholder can give his proxy to anyone else.

The company has close to 600 stores and is one of the great merchandisers of America. In these days I prefer merchandise stocks to any others. They are not dependent - like a manufacturer - on only a few products or habits. They are fairly free from labor troubles and losses from changing styles. They also give investors an important diversification of locations with stores in every state. Furthermore - in case of World War III Montgomery Ward offers protection against bombing.

In addition to this, the company is a bank crammed full of cash, bonds, and notes and accounts receivable of nearly half a billion dollars. In fact, I know of no company in the world like it. Under Avery's management it should be safer than any bank. All other "banks" report, as deposits, only the money belonging to others. These depositors could draw out their money and close the bank at any time. Their deposits really are debts which the bank owes! Not so with Montgomery Ward. As a stockholder in this company you are the depositor and own the cash.

Today the Dow-Jones Industrial Average is higher than at its peak in 1929. Yet, the dividends on these stocks - minus the Federal taxes which the average investor must pay - are less than in 1929. I'm not now forecasting any immediate crash; in fact, most of my friends here in New York are bullish - as they were in December, 1928! But I surely do advise readers of this column to keep a good nest-egg of cash just in case the unexpected should happen. Don't be like the Five Foolish Virgins of Bible days. See Matt. 25: 1-13.

Readers - however - answer my warnings by saying: "But I need the income. My bank will pay me only from 1% to 3% - I need more than this to live on." Then what is my answer? "Buy Montgomery Ward. So long as S. L. Avery is in control you get a good dividend on your money and yet have it practically in cash, or inventory, or valuable land. Furthermore, if inflation comes and the value of the dollar declines, the value of the inventory and land should increase. So, whatever happens - boom, bust, or a continuance of present business - I believe Montgomery Ward is your best investment and protection."

In addition to the 580 or more stores and the cash in which I have above referred, Montgomery Ward has one of the two best cash mail-order businesses in the world, amounting to about \$350,000,000 annually. When you see automobiles with stickers: "No Parking - No Shopping," or "Less Shopping - Less Local Jobs," it does not necessarily mean that the shoppers curtail their buying. In most cases they resort to mail orders again. Mail-order buying - however - hurts your local merchants.

Mail orders will continue on the increase due to the cussed inconvenience to shoppers of finding a parking place and the brutal manner in which city authorities are treating shoppers who are dependent upon cars. It is reasonable to make "all-day" or "half-day" parkers go to a public garage or parking lot and pay a fee. But the present system of using parking meters is driving shoppers away or causing them to go home with fewer purchases. Any merchants whose Christmas business falls below last year's can blame it on their city government. Failure on the part of city authorities to provide sufficient free parking space is the chief cause of business failures today.

**Watershed Planning
On Small Streams**

On July 31, 1953, the president of the United States sent a message to Congress stating that there was a need for conservation of land and water in our smaller stream and river watersheds - particularly in upstream areas. The following month the first draft of a bill was sent to the Secretary of Agriculture for his comment.

The bill gave the Secretary authority to cooperate with states and local agencies in planning and carrying out "improvements" for flood control and for soil and water conservation. He approved, saying that the bill "contained needed legislation embracing sound principles of local initiative and responsibility."

In 1953, Congress passed legislation (Public Law 566) to carry out the President's plan. Following are some of the important provisions in the new Watershed Protection and Flood Prevention Act:

1. Local organizations (such as a city, village, county, soil conservation district drainage or state agency) may apply to the Secretary of Agriculture for assistance.

2. The application must be approved by a state agency or by the Governor and by the Secretary of Agriculture. Before he approves, the Secretary must determine that the benefits will exceed the costs.

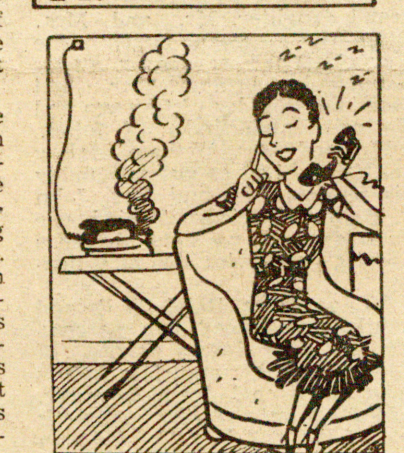

3. Federal aid is received in the form of joint planning, surveying, and financing with the local sponsoring organization. It is expected that over half of the cost of each improvement (such as a dam) will be paid from local funds.

4. The local sponsoring organization is required to do the following: Acquire land, easements and right-of-ways; pay a share of the cost (all costs not related to flood prevention are paid from local funds); provide for operation and maintenance; and obtain from owners of at least half the land an agreement to carry out soil conservation programs.

This last requirement would seem to make it necessary that every watershed and water management program be planned with a soil conservation district or at least that the conservation district be a co-sponsor. This would be the only practical way to make sure that the minimum soil conservation program is carried out.

The law contains some restrictions on the size of the watershed plan. The total area cannot ex-

Electronic Blanket Control

An unusual property of nickel —its electrical resistivity increases rapidly as temperatures rise —has made the metal useful for the "feeler" wire that acts as a temperature control in electronic blankets.

Seagoin' Metal

Monel, a nickel-copper alloy, is used by boat builders for fuel and water tanks because its resistance to corrosion by salt water helps to avoid the danger from leaking joints, contaminated water and clogged fuel lines.

Chicago To Have First Radio Parish

Chicago is to have another first. Feeling the need for a regular, well-organized Christian Radio Ministry throughout the Chicago area, a group of ministers and laymen representing various denominations have organized what is considered to be the first interdenominational radio parish, and they have named it just that —The Radio Parish of Chicago.

The first series of programs will begin Jan. 16th and will include interviews with outstanding churchmen of the Chicago area, interpretive programs of great religious music, evangelistic services for the home, devotional talks on the Bible, special youth programs, and editorial comments on world affairs from a Christian point of view. Eventually there will be dramatic productions and panel discussions.

School News

TINLEY PARK SCHOOL NEWS

We are at the beginning of a new year, and thinking of ways that we can improve our lives, our family, our community, last but not least our school.

It is fine that we are so thinking, for there are many ways that we can improve, there is no better time than the New Year to make that start.

New Year resolutions are fine if they are positive; but too often they are merely negative (swearing off things), as we think of ours this year, may we think of the things that we would like to do; we will be surprised at the ease with which we carry out our resolutions.

To resolve to be friendly, will make unnecessary the resolution "not to fight" and will be much easier to keep. To resolve to live cheerfully, will be much better than to resolve not to be gloomy.

Many of the staff and pupils have taken advantage of the holidays, to visit relatives and friends.

Room 302 enjoyed hearing from Ellen MacMonagle's long trip to Boston, Mass., to visit her kin folk.

La Verne Brandau, left early for a long trip to Florida, and told a nice story about places visited while passing through. Several other pupils mentioned a probable visit to some southern states.

We hope Mrs. Zahler enjoyed her Mexican trip by air. In such a colorful country, she was able to get pleasure from the scenery and methods of living.

Miss Flora Rogers visited her nephew, in New Orleans for the Christmas holiday, then on across to Florida, where she expects to see her brother and his family.

Mrs. Ada Schellhase is enjoying her new home in Tinley Park. We feel certain she is happy to be so near the school house.

Mrs. Jahn, our music instructor spent the holidays with folks in Michigan and probably had more snow and cold than the rest of us. No doubt skiing and skating or sleigh riding.

Thanks a million to everyone who sent messages and greeting for Christmas and New Years happiness.

More joy and happiness may the year 1955 bring to you, every day in the year, than you ever dreamed about.

A New Year's Resolution, Oh, what a resolution of peace, it might be.

If all the nations of the world, should decide to agree.

—Mrs. Florence Phillips Rm. 302

Bert H. Fulton News

The Bert Fulton school is back in full swing after the full swing after the holidays. The boys and girls in room 100 brought their favorite Christmas gifts to school Friday to show their friends.

The sharing of Christmas joys has been a delightful time for room 105, third grade; many children brought their favorite toys show the group; and others told of their toys and interesting things they had done during the vacation.

Multiplying in arithmetic is proving to be interesting to all the third graders. They are learning the facts for multiplying by 3, 4 and 5.

The pupils of room 101 have formed a library club. Janet Suhs furnished a number of books. Each child is encouraged to bring any number of books he wishes. During the day the children enjoy looking at these books.

Jeffery Arthur will have his tonsils removed in the near future.

Room 102 will be starting on their new readers Monday. It is called "More Friends and Neighbors." They are going to dramatize their favorite stories from the book they have finished reading. They are going to make a mural of Pleasant street.

Room 106 has had a wonderful trip to Florida via Gregory Kent. He spent his Christmas vacation in the warm sunshine state and has told all of us about his trip.

On Tuesday, room 106 had a wonderful time looking at each boy and girl's favorite Christmas gift. We had a lovely time looking at bride dolls, baby dolls, tractors, cars, stuffed animals and many other nice things.

—Jean Sweeney, room 100

Mokena Public School

Spring is making an early appearance in the first grade room. The daffodil bulbs planted late in September are beginning to send roots down into the stones and greet shoots into the air. We can hardly wait for the flowers to come.

We are learning addition facts. We are able to write our own problems by using words found in the stories we have read.

One day we had fun finding little words in the expression "Happy New Year."

Another day we were very busy making and labeling place mats for each member of our family. These were very decorative and artistic and much appreciated by the entire family.

The second-grade children have been making a study of Penguins. They learned that in 1899 thousands of penguins marched steadily over the ice almost 12 miles from the sea of the Antarctic.

The children have also learned to draw penguins, and can explain in detail what a penguin looks like, finishing probably by saying, "they look like little men in dress suits."

The third and fourth grades

are engaged upon a discussion of four of the senses, sight, hearing, taste, smell, their organs and their uses.

The eighth grade of Mokena public school is planning a roller skating party for Jan. 22. It will be held at the Midlothian roller rink where they will enjoy a night of fun. The chaperons will be Mr. Miers, the class advisor, Mr. and Mrs. Gilmore, Mr. and Mrs. Zink, Mrs. Anderson, Mrs. Hacker and Mrs. Daugherty.

The eighth grade class held elections Jan. 7 for class officers for the spring term. Sandra Swinford was re-elected president, Lewis Johnson, vice president, Douglas Porick was re-elected secretary and Ronald Daugherty was elected treasurer. Karen Anderson was elected class reporter.

Nine year old Janet Geuther has just returned to her class in the Mokena Public school after being in three hospitals. During her absence the boys and girls in her room sent her cards and letters.

Frankfort School News by Donna Miller

The first graders were showing their Christmas toys this past week. Those having birthdays and treats were Bonita Lauffer and Dale Ebert. Absent was Sherri Hill.

Mrs. Woodman being absent, Mrs. Burton Breidert was substitute in the second grade room. This room had perfect attendance in spite of the wet weather and colds going around. They are changing from printing to writing.

Third grade formed a rhythm

band and are writing stories for closest brush with earth in 13 the Potato Puppet show. Birthdays during holidays were Dale Schoen and Lawrence Zollner.

The March of Dimes is being held. Miss V. Lankenau, chairman, Mrs. I. Davidson, Lincoln Estates, co-chairman. Cards have been filled in the schools by the pupils and cans placed in the local business places.

Stars And Planets Featured In N. W. University Ski Show

Northwestern university has planned a year-round sky show for Chicago-area residents.

At regular intervals the production will feature an entirely new cast of stars, planets, and moons.

The big 18 1/2-inch refracting telescope in the University's Dearborn observatory will be opened to public viewing every clear Friday night and will be trained in turn on Jupiter, Saturn, and Mars.

The special program has been planned in response to the great public interest shown last summer, when more than 2,000 Chicagoans came to the observatory to peer at Mars, then making its

closest brush with earth in 13 years.

Open house hours will be from 7:30 pm. to 9 pm. during the winter and from 3:30 to 10 p.m. during the summer. Children under 12 must be accompanied by an adult, and children's groups by at least one adult for each five children.

Dearborn observatory is located at Sheridan rd. and Garrett pl., on the lakeshore of Northwestern's Evanston campus.

Currently in position for viewing over Lake Michigan are the planet Jupiter and the awesome Orion Nebula.

Jupiter, the largest planet, exhibits a series of colored bands ranging from a pearly gray to blue to brownish red. Also visible at Dearborn will be the planet's four moons, whose rapid movement may be followed even in a brief viewing period. The movement of Jupiter's moons provided astronomers with the method of discovering the speed of light.

The Orion Nebula is a huge mass of shining gas embedded with stars. Occupying the entire field of the Dearborn telescope, the nebula's mass is 500 times that of earth's sun.

From Congressman N. M. Mason

The most important vote of
every Congress is taken on the
first day of each new Congress.
It is a vote to organize the House
and the Senate for the next two
years. That vote determines the
following:

1. Which party shall have con-
trol of the legislative machinery.
 2. Who shall be Speaker of the
House.
 3. Whether the Committee
Chairmen shall all be Democrats
or all be Republicans.
 4. Whether each Committee
shall be composed of 15 Democ-
rats and 10 Republicans or 15
Republicans and 10 Democrats.
 5. What legislative matters
shall be taken up and considered
during the next two years.
- Since the majority in each
branch of the 84th Congress is
now Democratic, the vote taken
on Jan. 5th gave the Democratic

Party control of the legislative
machinery for the next two
years; elected Sam Rayburn
Speaker of the House instead of
Joe Martin; placed a Democratic
Chairman in control of every
committee; and gave the Democ-
rats a 15 to 10 majority on every
committee.

For the next two years, there-
fore, President Eisenhower will
have to deal with, "kowitz to,"
the Democratic leaders in both
the House and the Senate. One
ray of sunshine, however, is the
fact that most of the Chairmen
of the Committees will be South-
ern Democrats, by virtue of their
seniority, and they are by-and-
large Jeffersonian Democrats,
good Americans - fairly conser-
vative in their attitude. That
means there will be very little
"New Deal" legislation passed by
Congress during the next two
years.

The Dixon-Yates Tennessee
Valley Authority controversy
arose last year when the TVA
asked the Eisenhower Adminis-
tration to approve the construc-
tion of 8 new steam-generating
plants, with a capacity of 1 1/2
million kilowatts to meet their
expanding power needs, a cost
of something over \$100 million
of the American taxpayers' mo-
ney. This request was refused by
Joseph Dodge, Budget Director.
Mr. Dodge suggested that instead
of using taxpayers' money to
provide the extra power needed,
the Atomic Energy Commission
should enter into a contract to
buy the power from Middle
South Utility Inc., headed by
Dixon and Yates. The Dixon-
Yates company offered to build
a power plant to provide the
needed power if the government
would enter into a 25-year con-
tract with them for the needed
power.

In 1952 a contract was signed,
with President Truman's ap-
proval, with Private Utilities to
furnish 750,000 kilowatts of
power to the Atomic Energy
Commission at Paducah, Ken-
tucky. Again in 1952, with Pres-
ident Truman's approval, a con-
tract was signed with Private
Utilities to furnish 2,000,000 kilo-
watts to the Atomic Energy Com-
mission at the Portsmouth, Ohio,
plant. Each of these contracts
was financially less advantageous
to the Federal Government and
